

A TEAM. A JOURNEY.

Već 30 godina Lacuna gradi priču o zaštiti, kvaliteti i inovaciji.

Kompanija je osnovana u Zagrebu, a danas je sjedište Lacuna grupe u Zagorju u Sv. Križu Začretju, gdje se nalaze proizvodni pogon, logističko-distributivni centar, showroom, edukacijski centar te uprava. Bogata tradicija tekstilne industrije u Zagorju omogućila nam je transformaciju – od distributera do proizvođača vlastitih brendova radne i zaštitne odjeće.

Lacuna kolekcije prepoznatljive su po suvremenom dizajnu, funkcionalnosti i kvaliteti. Lacuna razvoj kreirao je i na tržište uveo više stotina modela zaštitne i radne obuće, sezonske i radne odjeće, rukavice i zaštitnu opremu pod brendovima Lacuna i Getout, dok se kroz Brokula Carewear fokusiramo na eko-friendly program od organskog pamuka i recikliranih materijala. Posebno mjesto zauzima razvoj i proizvodnja multinorm odjeće, certificirane prema zahtjevnim EU standardima za visokorizične poslove. Kao ekskluzivni distributer renomiranih svjetskih brendova poput ATG, Coverguard, BLS, Kratos Safety i Base Protection, uz vlastitu proizvodnju i široku mrežu distributera, pozicionirali smo se kao regionalni lider u segmentu osobne zaštitne opreme.

Naša snaga leži u logistici – centralni lager u Sv. Križu Začretju s više od 25.000 artikala na zalihi omogućuje isporuku u roku od 24–48 sati. Osim postojećeg proizvodno - distributivnog centra veličine 4000 m², Lacuna grupa će ulaganjem u novi logističko-distributivni centar od 5.000 m², imati kapacitet 10.000 paletnih mjesta vlastitog skladišnog prostora.

Duže od desetljeća naše poslovanje je digitalizirano. B2B web shop platforma kupcima omogućuju direktan i jednostavan pristup kompletnom Lacuna prodajnom portfelju sa svim servisnim informacijama. U Lacuna edukacijskom centru zaokružujemo kompletnu podršku kroz stručne edukacije, treninge i radionice, namijenjene distributerima, voditeljima zaštite na radu i krajnjim korisnicima osobne zaštite opreme. Tijekom trideset godina rasta i razvoja, najvažniji pokretač ostali su naši zaposlenici. Njihovo znanje, predanost i timski rad ono su na čemu gradimo povjerenje kupaca i hrabro kročimo u nove projekte.

19. rujna 2025. Lacuna je proslavila 30 godina postojanja – tri desetljeća predanog rada, partnerstva i povjerenja. Ova obljetnica za nas je bila više od proslave – to je bio trenutak u kojem smo se osvrnuli na put koji smo prošli i na ljude koji svojim doprinosom grade našu priču.

Lacuna zaposlenici i poslovni partneri iz regije i Europe okupili su se za nas na simboličnom mjestu - Sljemenskom tornju.

Upravo sa Sljemenskog tornja pruža se nevjerojatan pogled i prema Zagrebu u kojem su bili naši prvi koraci, i prema Zagorju i Svetom Križu Začretju, gdje danas kuca srce Lacune.

For 30 years, Lacuna has been building a story of protection, quality, and innovation.

The company was founded in Zagreb, and today, the Lacuna Group is headquartered in Sv. Križ Začretje. There, we operate a production facility, logistics and distribution centre, showroom, education centre, and administration office. Thanks to the rich tradition of the textile industry in Zagorje, we have been able to transform from a distributor into a manufacturer of our own brands of work and protective clothing.

Lacuna collections are recognisable by their modern design, functionality, and quality.

Lacuna Development has introduced several hundred models of protective and work footwear, seasonal and work clothing, gloves, and protective equipment under the Lacuna and Getout brands. With Brokula Carewear, we focus on an eco-friendly program made of organic cotton and recycled materials. A special category is multinorm clothing, which is certified according to the demanding EU standards for high-risk jobs.

As an exclusive distributor of renowned global brands such as ATG, Coverguard, BLS, Kratos Safety, and Base Protection, and with our own production and a wide network of distributors, we have positioned ourselves as a regional leader in the personal protective equipment segment.

Our strength lies in logistics — the central warehouse in Sv. Križ Začretje, with a stock of over 25,000 items, enables delivery within 24 to 48 hours. In addition to the existing 4,000 m² production and distribution centre, the Lacuna Group will have a capacity of 10,000 pallet spaces in its own warehouse by investing in a new 5,000 m² logistics and distribution centre.

Our business has been digitalised for over a decade. Lacuna B2B web shop platform gives customers direct and easy access to our full sales portfolio with all service information. At the Lacuna Education Centre, we provide comprehensive support through professional education, training, and workshops for distributors, occupational health and safety managers, and end users of personal protective equipment. Throughout our thirty years of growth and development, our employees have been our most important asset. We build customer trust on their knowledge, dedication, and teamwork, and boldly step into new projects.

19th September 2025. Lacuna celebrated 30 years of teamwork, partnership, and trust. For us, this anniversary was more than a celebration — it was a time to look back on our journey and recognise the people whose contributions have shaped our story.

Lacuna employees and business partners from region and Europe gathered at a symbolic place for us - the Sljeme Tower.

The Sljeme Tower is one of the symbols of the city of Zagreb. From there, you can see the city where our business was born, as well as the Zagorje region and the town of Sv. Križ Začretje, where the heart of the Lacuna company is now.

2-u-1 Hi-Viz jakna CETUS, dizajnirana je za one koji zahtijevaju najbolju kombinaciju sigurnosti i prilagodljivosti. Ova jakna s prslukom nudi savršenu ravnotežu između funkcionalnosti i udobnosti, čineći je idealnim izborom za sve radne uvjete. 100 % poliester podstava osigurava optimalnu toplinu i udobnost, omogućujući vam da ostanete fokusirani i zaštićeni tijekom cijelog dana.

The 2-in-1 Hi-Vis Jacket CETUS is designed for those who demand the perfect combination of safety and versatility. This jacket with a removable vest provides an ideal balance between functionality and comfort, making it a perfect choice for all working conditions. The 100% polyester lining ensures optimal warmth and comfort, allowing you to stay focused and protected throughout the day.

4-u-1 parka TAURUS s unutrašnjom jaknom, uklonjivim rukavima i prslukom pruža najviši nivo prilagodljivosti u svim vremenskim uvjetima. Vanjski materijal Oxford 300D poliester s poliuretanskim premazom garantira izvanrednu otpornost na vodu i habanje i dugotrajnost.

The TAURUS 4-in-1 Parka with an inner jacket, detachable sleeves, and vest offers maximum versatility in all weather conditions.

The outer material, 300D Oxford polyester with a polyurethane coating, provides excellent resistance to water, abrasion, and wear, ensuring long-lasting durability.

SAFETY AND WORK CLOTHING

MOVE FLEX

MOVE FLEX kolekcija izrađena je od fleksibilne, rastezljive poliamidne tkanine s velikim učešćem elastina. Tkanina je ujedno i izdržljiva, s visokom razinom otpornosti na habanje te se optimalno prilagođava tijelu i omogućuje slobodu pokreta.

Poliamid u sastavu osigurava visoku čvrstoću materijala u suhim i vlažnim okruženjima, dugotrajnu otpornost na habanje i sunčevu svjetlost. Jedna od prednosti je lako održavanje jer se tkanina ne skuplja i ne gužva.

Zbog udjela elastana u sastavu, odjeća dobro pristaje uz tijelo te je osigurana udobnost pri obavljanju radnih aktivnosti zbog rastezanja u 4 smjera.

The MOVE FLEX collection is made from a flexible, stretchable polyamide fabric with a high percentage of elastane.

The fabric is also highly durable, offering excellent resistance to abrasion while perfectly adapting to the body and allowing full freedom of movement.

The polyamide content ensures high material strength in both dry and damp environments, long-lasting resistance to wear and sunlight, and easy maintenance, as the fabric does not shrink or crease.

Thanks to the elastane content, the garments fit well to the body and provide exceptional comfort during work activities, with 4-way stretch for maximum flexibility.

WING O1 SR FO ESD

9WINGOL

Gornjište: prozirna višedimenzionalna mrežica s TPU pojačanjem u predjelu prstiju
Podstava: višedimenzionalna mrežica
Uložna tabanica: izmjenjiva PU anatomska, na bazi memorijske pjene
Don: dvoslojni PU/PU
Standard: EN ISO 20347:2022, ESD: EN 61340-5-1:2016 & EN IEC 61340-4-3:2018
Značajke: O1 SR FO ESD
Dostupne veličine: 36-48
Originalno pakiranje: 1/10

Upper: breathable multidimensional mesh with TPU reinforcement in the toe area
Lining: multidimensional breathable fabric
Insole: removable anatomical PU based on memory foam
Sole: Double density PU/PU
Standard: EN ISO 20347:2022, ESD: EN 61340-5-1:2016 & EN IEC 61340-4-3:2018
Technical specifications: O1 SR FO ESD
Available sizes: 36-48
Original packaging: 1/10

CE EN ISO 20347:2022

GARBIN S3 SRC ESD

9GARBSL

Gornjište: tehnička tkanina visokih anti-abrazivnih svojstava

Zaštitna kapica: fiberglass

Tabanica: tekstilna neprobojna

Podstava: prozirna višedimenzionalna mrežica

Uložna tabanica: memorijska pjena

Don: dvoslojni PU / PU

Značajke: S3, SRC, ESD

Standard: EN ISO 20345:2011

Dostupne veličine: 36-48

Originalno pakiranje: 1/10

Upper: high- abrasion resistant technical textile

Protective toe cap: Fiberglass

Midsole: puncture-resistant textile

Lining: breathable multidimensional mesh

Insole: memory foam

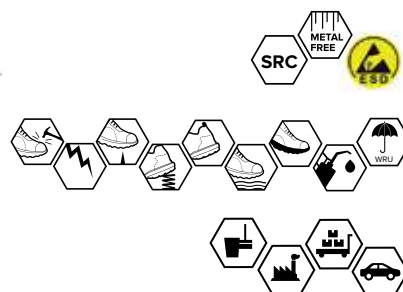

Sole: double density PU/PU

Technical specifications: S3 SRC ESD

Standard: EN ISO 20345:2011

Available sizes: 36-48

Original packaging: 1/10

CE EN ISO 20345:2011
